Dear Mr. Regan:

We have your letter of the 6th concerning the use of
the character and name "KING KONG".

We have checked with our production department and find
that this style has not been run by our company during
the past few months.

We process hundreds of designs each week, most of which
are submitted by our customers and if there had been
any infringement of your rights we certainly had not been
aware of it and we can assure you that it will not be re-
peated.

Many thanks for bringing this matter to our attention.

Sincerely,

ALLISON MANUFACTURING COMPANY
